

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	31 January 2025
Team ID	LTVIP2026TMIDS60338
Project Name	Full Stack Development (MERN)
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form Registration through Gmail Registration through LinkedIn
FR-2	User Confirmation	Confirmation via Email Confirmation via OTP
FR-3	User Login	Login using email & password Login using Google Forgot password & reset
FR-4	User Dashboard	View enrolled courses View progress & stats View recommended courses
FR-5	Course Management	Browse available courses Enroll in courses View course content (videos/material)
FR-6	Learning Progress Tracking	Mark lessons as completed Track progress (percentage/progress bar)

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The system should have a simple and user-friendly interface so that beginners can easily navigate and use the platform
NFR-2	Security	User data (passwords, personal info) should be encrypted and protected using authentication mechanisms (JWT, hashing)
NFR-3	Reliability	The system should function correctly without crashes and ensure consistent performance during usage
NFR-4	Performance	The application should load pages within 2–3 seconds and handle

NFR-5	Availability	The platform should be available 24/7 with minimal downtime
NFR-6	Scalability	The system should support increasing users and data without affecting performance
